

New Classroom Building

Bishopstrow College is delighted to announce the opening of its new Classroom Building.

The new building comprises eight classrooms over three floors, with an attractive courtyard in the centre. Specialist facilities include a new IT suite and library, science laboratory, multi-purpose activity room and staffroom. All classrooms are equipped with interactive technology, including Clevertouch touch-screen televisions.

The new block provides a superb learning environment for English language and subject-specific teaching, including Business Studies, Geography, History, ICT, Mathematics and Science.

The opening marks the end of a four-year planning, design and development process, and forms part of the wider Development Plan for Bishopstrow College. As part of this plan, a new wireless technology system has just been introduced to enhance the College's cloud computing infrastructure, ensuring that students learn in a state-of-the-art ICT environment throughout the College campus.

Previously completed projects include the Multi Use Games Area (MUGA) and the new Aldhelms boarding house, which opened in 2012.

“The opening of the new classroom block represents a major boost to teaching and learning at the College. Our students and teaching staff now have first rate facilities in which to work and to enable their continued academic excellence to flourish.”

Fran Henson, Principal

About Bishopstrow College

Established in 2006, Bishopstrow College is the UK's only truly independent residential international study centre dedicated to international students wishing to enter Britain's finest independent schools. The College is not affiliated to any individual schools, so students are completely free to choose their destination. Each term, we welcome about 70 boys and girls, aged 7 to 17, for whom English is not their first language.

Uniquely, the College operates a four-term academic year specifically designed to meet the needs of international families. Students stay for a minimum of one and maximum of four terms, ensuring a swift, seamless transition to their chosen school.

The College is accredited by the British Council for the teaching of English and is a member of English UK. Bishopstrow is also an Authorised Centre for the University of Cambridge ESOL examinations and a Cambridge International Centre for the University of Cambridge International Examinations.
