

BISHOPSTROW COLLEGE

A pathway to excellence

I am Le, from China. I am 16 years old and I entered Bishopstrow College when I was 14. When I first came to the college, I had big trouble in speaking English, but with the help from my teachers I gradually gained my English-speaking confidence. I studied 3 terms there, but just in less than 1 year my English had been improved significantly. After my first term I successfully passed a Cambridge English called PET, and two terms later I once again took another exam which was called FCE (equivalent to English B2 level).

During my last term at Bishopstrow, the school prepared me for the interview a couple of times and this really did a great deal enabling me to be able to enter my destination school. After graduating from Bishopstrow College, I successfully got accepted by St Clare's, one of the top IB school in the UK, and became one of their Pre-IB students. Since I got more familiar with the British style of teaching and what a boarding school was like during the year at Bishopstrow, I was able to adjust to my new school seamlessly.

In the near future, I will become an IB student and my main focus will be on my high level subjects such as maths and physics. I am aiming to get 38 points in my IB final exam and go to a good university where I can study Economics.

Barrow House, Bishopstrow Road, Bishopstrow, Warminster, Wiltshire, BA12 9HU, England.
